

## Firehouse Historical Exhibition

Granville Historical Society has been asked to design a lobby exhibition about the history of the Fire Department for the new building that is currently being built. It will include the 1885 hose cart (see photo) and smaller artifacts belonging to the department.

Photo compliments of the Granville Fire Department

Our fearless leader, Cynthia Cort

The walls will exhibit old photos of the department members in action.

Last week Janet Procida, exhibition chair, and President Cynthia Cort were at the construction site to look at the space and take measurements. The hose cart may need to be put into the building before the doorway is finished. When we have a date for the cart to move from the Old Academy Building where it is being stored, we will make an announcement and plan to make this an exciting community event. When you join us just remember to wear your masks.

## Historical Times uploaded!!

We have completed the uploading of the back issues of the historical times up to the last electronically available issue, Winter 2019. On our web page, click on the section on *Granville History* and *Granville Times Back Issues* to get to a page from which to download them. In addition the index is available for you to use if there is a specific subject you want to look up.

### Museum Hours

**The museum and research facility are currently closed for the duration of the Public Health Emergency**
